

CLIMATE FINANCE TRANSPARENCY MECHANISM (CFTM)

2nd INTERNATIONAL CONFERENCE ON CLIMATE FINANCE ICCF 2019

9-10 | DHAKA
MARCH | BANGLADESH

BACKGROUND

Climate change is the greatest threat to mankind in the twenty-first century. It is a global issue that needs to be addressed with concerted efforts from all countries and stakeholders. While some developed countries are held responsible for causing climate change, some of the less endowed countries are highly vulnerable to its consequences. The key documents, viz. the United Nations Framework Convention on Climate Change (UNFCCC), the Kyoto Protocol (KP) and the Paris Agreement (PA) call for assistance from Annex I Parties in four key areas, mitigation, adaptation, capacity building and finance.

Regarding the above, the first International Conference on Climate finance (ICCF) was held on 27-28 January 2018 in Dhaka, Bangladesh. Followed by the success of ICCF 2018, the conference secretariat, Bangladesh Centre for Advanced Studies (BCAS) was expected to continue this effort. Hence, BCAS is organizing the 2nd International Conference on Climate Finance (ICCF) 2019 on 9-10 March 2019 in Dhaka, Bangladesh, in collaboration with Centre for Climate Change and Environmental Research (C3ER), BRAC University and International Centre for Climate Change and Development (ICCCAD), Independent University of Bangladesh under the Climate Finance Transparency Mechanism (CFTM) project.

ICCF has initiated a platform for national and international experts, scientists, researchers, practitioners and policymakers to share and exchange their knowledge and experiences on current and future climate finance issues. It offers representatives from government, non-government, academics and private sectors opportunity for interdisciplinary dialogues on climate finance. The theme of ICCF 2019 is “Challenges and Opportunities of Climate Finance” with a focus on enhancing contributions to access, mobilization and utilization of climate finance. This two-day conference welcomes participants to showcase project experiences, research progress and emerging policy issues through technical sessions and discussions.

OBJECTIVES

The main objectives of the 2nd International Conference on Climate Finance (ICCF) 2019 are:

- To discuss existing and potential opportunities and challenges of climate finance.
- To enable representatives from relevant sectors to exchange knowledge and experiences in climate finance.
- To enhance financial contribution and political ownership of Parties to UNFCCC, improve climate governance and ensure access to climate finance.

The conference will have ample opportunities for intensive discussions, interactions and question and answer sessions.

SPEAKERS AT A GLANCE

Eminent academicians, experts and high-level government officials will be cordially invited to deliver their speeches at different sessions of the programme to address various issues of climate finance. They include:

Dr. Atiq A. Rahman
Executive Director, BCAS

Dr. Ainun Nishat
Professor Emeritus, Director, C3ER

Dr. Saleemul Huq
Director, ICCAD

Dr. Paul V. Desanker
Manager
Adaptation Programme, UNFCCC
Bonn, Germany

Dr. Pa Ousman Jarju
Director, Country Programming Division
Green Climate Fund
Icheon, South Korea

Mr. Paul Steele
Chief Economist, IIED
London, UK

Ms. Katherine Cooke
Senior Consultant, Climate change and disaster risk
Oxford Policy Management (OPM)
Oxford, United Kingdom
